# Comprehensive Basic Math Skills Assessment Report

Company: Resource Associates Samples  
Date: February 25, 2026

Username: RESOFRUH0001  
Candidate: John SamplePerson

## APTITUDE SCORES: Reported as Percentile

|                                 | PERCENTILE RANGE |       |       |       |       |       |       |       |       |         |
|---------------------------------|------------------|-------|-------|-------|-------|-------|-------|-------|-------|---------|
|                                 | 0-10%            | 10-19 | 20-29 | 30-39 | 40-49 | 50-59 | 60-69 | 70-79 | 80-89 | Top 10% |
| Comprehensive Basic Math Skills |                  |       |       |       |       | X     |       |       |       |         |

### Aptitude Raw Scores

|                                 | Total Correct | Total Attempted | Total Questions |
|---------------------------------|---------------|-----------------|-----------------|
| Comprehensive Basic Math Skills | 19            | 26              | 50              |

## Score Interpretation Guidelines

The aptitude scores in the table above reflect percentile rankings -- not percent correct. For example, if a person scores 80-89%ile on a test, it means that they scored at least as well or better than 80-89%ile of the norm group, but not as high as about 10-20%ile of the norm group. So, higher scores are better than lower scores.

Lower Overall Cognitive Aptitude scores predict that the candidate will have difficulty solving new or complex problems. They generally prefer duties that require specific responses rather than those requiring insightful solutions. For example, if they are experienced in their occupation, they may be able to perform well practiced tasks adequately but may have difficulty learning unfamiliar things. As such, they may need additional training time and more support from supervisors.

Higher Overall Cognitive Aptitude scores predict that the candidate will learn quickly, pick up information on their own without needing to be trained, handle a large information load easily, make decisions efficiently, and show a great deal of insight into solving new and complex problems.
